EPOS Consulting

“Excellence in EPOS

For Your Business Needs”

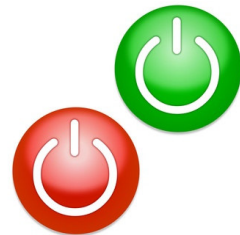

Technology Requirements Management

Since 2005, EPOSability have been providing consulting services to the Retail Industry. Our in depth knowledge of available Electronic Point of Sale (EPOS) Technology, multi-channel retailing and the broader Retail Market ensures we are able to work with our clients in developing EPOS and IT solutions that are appropriate for their Retail and Technological needs, whilst being sensitive to budgeting requirements.

Systems Testing

EPOSability appreciates that EPOS is part of the Mission Critical Systems environment deployed by Retailers. An appropriate EPOS System contributes to the customer shopping experience, increases productivity and drives sales. EPOSability provides offsite and instore systems testing for Back Office Servers, Tills, Printers, EPOS peripherals, Kiosks and provides software & hardware compliance testing to ensure all EPOS solutions are tried and tested.

Programme, Project & Cost Management

EPOSability practises customized Prince2 Methodology for Programme & Project Management Services and detailed Cost Management. We practise effective stakeholder management, Risk Management, Change Control, Executive Reporting, Life Cycle Costing and various other techniques within our overall service. EPOSability considers cost avoidance and cost reductions as an integral part of our service, adding value to our clients.
